#### Section 1. EXECUTIVE SUMMARY

This Finding of Necessity report seeks to document evidence of slum and blight conditions throughout the neighborhood immediately north of Interstate 395 right of way ("I-395") and west of the Florida East Coast railroad right of way ("FEC ROW"), Bicentennial Park, and Watson Island in support of the inclusion of these areas within the Omni Redevelopment Area. The Finding of Necessity is an assessment of an area, supported by data and analyses, that provides evidence of slum and blight as defined in Section 163.355, Florida Statutes. The Finding of Necessity report is used as a planning resource by government entities to identify areas of need within their jurisdiction that may impose an onerous burden to the entity, decrease the tax base, and which constitute a serious and growing menace, injurious to the public health, safety, morals, and welfare of residents.

The proposed expanded area ("Study Area") is approximately 257 acres, and is generally defined as the southern edge of the Interstate-395 to the south, the FEC ROW to the east, NW 23<sup>rd</sup> Street to the north; NW 1<sup>st</sup> Place to the west, Bicentennial Park and southern portion of Watson Island, from the MacArthur Causeway south. (Figure 1 Location Map.) This report focused on the existence of the following conditions:

- Predominance of defective or inadequate street layout, parking facilities, roadways, and public transportation facilities;
- Faulty lot layout in relation to size, adequacy, accessibility, or usefulness;
- Unsanitary or unsafe conditions due to environmental contamination;
- Deterioration of site and other improvements;
- Diversity of ownership or defective or unusual conditions of title which prevents the free alienability of land within the deteriorated or hazardous area;
- Crime; and
- Physical and economic conditions conducive to disease, infant mortality, poverty and crime because of the predominance of dilapidated, deteriorating, antiquated and obsolescent buildings and the existence of conditions that endanger life and property by fire and other causes.

#### Predominance of Defective Street Layout and Roadways.

The street layout within the Study Area presents several defects resulting from the presence of the FEC ROW and a street grid shift. For example, several streets in the western section of the Study Area end in a three-way or "T" intersection, while other streets jog and are slightly askew as they continue through four-way intersections. The "T" intersections create extremely long blocks which serve as a barrier to both pedestrians and vehicles, and disrupt the connectivity between adjacent neighborhoods.

#### Predominance of Inadequate Parking Facilities and Defective Public Transportation Facilities.

The Study Area lacks a centralized public parking facility, despite several institutional buildings with inadequate parking accommodations. A shortage of parking accommodations discourages commercial investment, and may adversely affect proposed residential developments. New residential developments would need to accommodate private parking facilities on site, thereby reducing the buildable footprint of the development while increasing project budgets to reflect construction and operation costs associated with a parking facility. Moreover, there are few convenient, safe, and timely transportation linkages to existing public transportation facilities and service routes.

#### Faulty Lot Layout.

Remnants of Miami's historic lot layout, characterized by the micro-subdivision of a City block into several small lots, are prevalent throughout the western section of the Study Area. These legal non-

conforming lots render development extremely difficult without significant land assemblage and attribute to the faulty lot layouts in the area. These faulty lot layouts create invite code enforcement violations and promote incompatible land uses of adjacent properties.

#### Unsanitary and Unsafe Conditions.

Unsanitary and unsafe conditions exist in the Study Area due to the existence of numerous environmentally contaminated sites, criminal activities, illegal dumping, and homeless activity.

#### Site and Structural of Deterioration.

The basic infrastructure of curbs, sidewalks and streets throughout the Study Area is in poor condition or in disrepair, and fail to meet current American with Disabilities Act ("ADA") standards. Multi-family residential buildings exhibit deteriorating conditions resulting from long-term neglect. Many buildings have been demolished because they were deemed unsafe by the City of Miami's Building Department. In turn, the number of vacant, unimproved properties in the Study Area has increased.

#### Unusual Conditions of Title Preventing the Free Alienability of Land.

Development of Watson Island is impacted by the unusual conditions of title to the property. The State of Florida conveyed this man-made island to the City of Miami with a deed restriction requiring that any development on the island be for a public purpose.

#### Conclusion

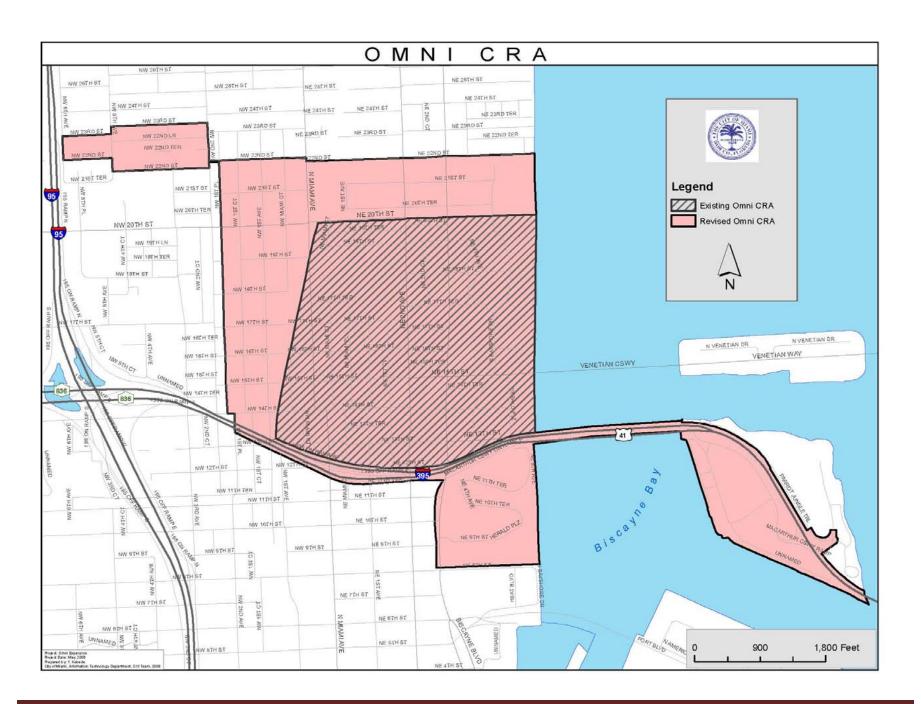

The Finding of Necessity report presents conclusive evidence of the existence of slum and blight conditions within the Study Area, and if left unattended, will persist and undoubtedly extend to and beyond the boundaries of the Omni Redevelopment Area. These conditions will lead to an economic and social liability to the City of Miami and Miami-Dade County, and could consume additional resources to address the myriad of issues outlined above, while reducing the local tax base.

#### SECTION 2. INTRODUCTION

#### 2.1 Location

The Study Area consists of approximately 275 acres and is generally defined as the southern edge of I-395 ROW to the south; the FEC ROW to the east, NW 23<sup>rd</sup> Street to the north; NW 1<sup>st</sup> Place to the west and Bicentennial Park and the southeastern portion Watson Island.

The Study Area is physically defined as beginning at the eastern shoreline and NE 22<sup>nd</sup> Street; then south along the eastern shoreline to the north side of the MacArthur Causeway right of way; then east along the north side of the MacArthur Causeway right of way to the eastern shoreline of Watson Island; then south along the eastern shoreline of Watson Island to the southernmost point of Watson Island; then west along the southern shoreline to the south side of the MacArthur Causeway right of way; then west along the south side of the MacArthur Causeway right of way to the eastern shoreline; then south along the eastern shoreline to 20 feet south of the FEC slip; then west along the 20 feet south of the FEC slip to the west side of Biscayne Boulevard; then north along the west side of Biscayne Boulevard to the southern edge of the I-395 ROW; then following the southern edge of the I-395 ROW to the west side of NW 1<sup>st</sup> Place; then north along the west side of NW 1<sup>st</sup> Place to the south side of NW 14<sup>th</sup> Street; then east along the south side of NW 14<sup>th</sup> Street to the west side of NW 1<sup>st</sup> Place; then north along the west side of NW 1<sup>st</sup> Place to the south side of NW 22<sup>nd</sup> Street; then east along the south side of NW 22<sup>nd</sup> Street to the east side of NW 2<sup>nd</sup> Avenue; then south along the east side of NW 2<sup>nd</sup> Avenue to the south side of NW 22<sup>nd</sup> Street; then west along the south side of NW 22<sup>nd</sup> Street to the west side of NW 5<sup>th</sup> Avenue; then north on the west side of NW 5<sup>th</sup> Avenue to the south side of NW 22<sup>nd</sup> Street; then west along the south side of NW 22<sup>nd</sup> Street to the west side of NW 6<sup>th</sup> Avenue; then north along the west side of NW 6<sup>th</sup> Avenue to the north side of NW 23<sup>rd</sup> Street; then east along the north side of NW 23<sup>rd</sup> Street to the west side of NW 5<sup>th</sup> Avenue; then north along the west side of NW 5<sup>th</sup> Avenue to the north side of NW 23<sup>rd</sup> Street; then east along the north side of NW 23<sup>rd</sup> Street to the east side of NW 2<sup>nd</sup> Avenue; then south along the east side of NW 2<sup>nd</sup> Avenue to the north side of NW 22<sup>nd</sup> Street; then east along the north side of NW 22<sup>nd</sup> Street to the eastern shoreline.

Page 6

#### 2.2 Finding of Necessity

On December 31, 2007, the City of Miami, Miami-Dade County, the Southeast Overtown/Park West Community Redevelopment Agency and the Omni Redevelopment District Community Redevelopment Agency ("CRA") entered into an Interlocal Agreement to provide for, among other things, the expansion of the Omni Redevelopment Area and the extension of the CRA's life. Pursuant to the Interlocal Agreement, the parties agreed that the CRA would cause a Finding of Necessity report to be prepared in which the conditions of slum and blight within the Study Area would be documented.

#### 2.3 "Slum" Defined

Section 163.340(7), Florida Statutes, defines "slum area" as an area having physical or economic conditions conducive to disease, infant mortality, juvenile delinquency, poverty, or crime because there is a predominance of buildings or improvements, whether residential or nonresidential, which are impaired by reason of dilapidation, deterioration, age, or obsolescence, and exhibiting one or more of the following factors:

- (a) Inadequate provision for ventilation, light, air, sanitation, or open spaces;
- (b) High density of population, compared to the population density of adjacent areas within the county or municipality; and overcrowding, as indicated by government-maintained statistics or other studies and the requirements of the Florida Building Code; or
- (c) The existence of conditions that endanger life or property by fire or other causes.

#### 2.4 "Blight" Defined

Section 163.340(8), Florida Statutes, defines "blighted area" as an area in which there are a substantial number of deteriorated or deteriorating structures, in which conditions, as indicated by government-maintained statistics or other studies, are leading to economic distress or endanger life or property, and in which two or more of the following factors are present:

- (a) Predominance of defective or inadequate street layout, parking facilities, roadways, bridges, or public transportation facilities;
- (b) Aggregate assessed values of real property in the area for ad valorem tax purposes have failed to show any appreciable increase over the 5 years prior to the finding of such conditions;
- (c) Faulty lot layout in relation to size, adequacy, accessibility, or usefulness;
- (d) Unsanitary or unsafe conditions;
- (e) Deterioration of site or other improvements;
- (f) Inadequate or outdated building density patterns;
- (g) Falling lease rates per square foot of office, commercial, or industrial space compared to the remainder of the county or municipality;
- (h) Tax or special assessment delinquency exceeding the fair value of the land;
- (i) Residential and commercial vacancy rates higher in the area than in the remainder of the county or municipality;
- (j) Incidence of crime in the area higher than in the remainder of the county or municipality;

- (k) Fire and emergency medical service calls to the area proportionately higher than in the remainder of the county or municipality;
- (I) A greater number of violations of the Florida Building Code in the area than the number of violations recorded in the remainder of the county or municipality;
- (m) Diversity of ownership or defective or unusual conditions of title which prevent the free alienability of land within the deteriorated or hazardous area; or
- (n) Governmentally owned property with adverse environmental conditions caused by a public or private entity.

However, the term "blighted area" also means any area in which at least one of the factors identified in paragraphs (a) through (n) are present and all taxing authorities subject to Section 163.387(2)(a) agree, either by Interlocal agreement or agreements with the agency or by resolution that the area is blighted. Such agreement or resolution shall only determine that the area is blighted.

#### Section 3. EXISTING CHARACTERISTICS OF THE STUDY AREA

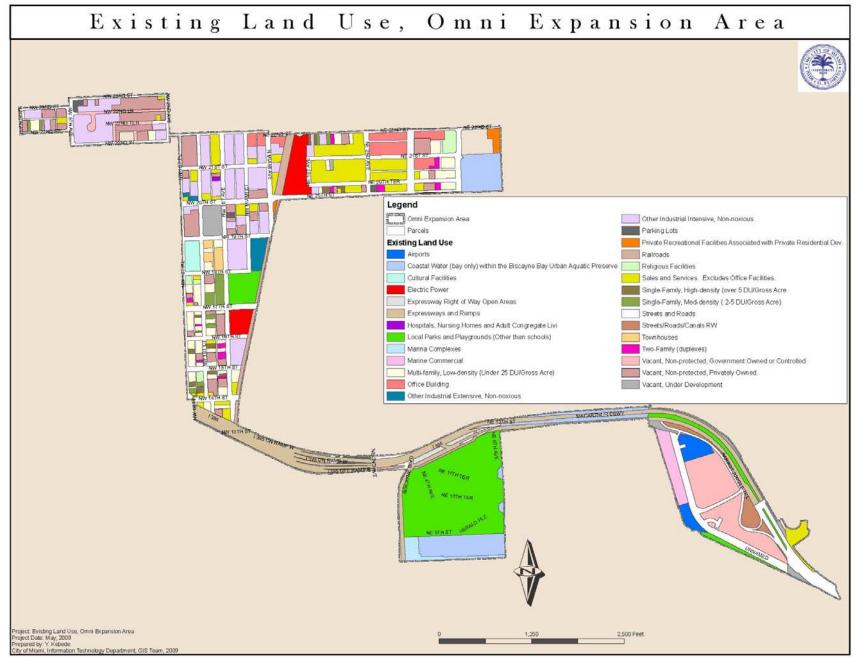

#### 3.1 Aerial Overview of the Study Area

As illustrated in the map entitled "Existing Land Use" on page 10, there are various land uses throughout the Study Area. For clarity, this report has divided the Study Area as follows:

- North Omni (Area 1-A to 1-C) is zoned industrial and general commercial.
- West Omni (Areas 2-A and 2-B) is zoned medium density multi-family residential and consists of single family and low-rise multi-family residential buildings, religious and educational institutions, and vacant lots.
- **Bicentennial Park** (Area 3) is a City-owned park that is zoned recreation and is currently unimproved.
- **Watson Island** (Area 4) is owned by the City and is zoned recreation. The southeastern section of the island is currently unimproved.

# **OMNI CRA Proposed Boundaries**

Finding of Necessity Proposed Expansion to Omni Redevelopment Area

1

Existing Site Characteristics North Omni (Area 1 – A )

The area bounded by NW 23<sup>rd</sup> Street to the north, NW 2<sup>nd</sup> Avenue to the east, NW 22<sup>nd</sup> Street to the south, NW 6<sup>th</sup> Avenue to the west, is primarily industrial with some commercial office buildings, as well as several older single family homes.

#### Existing Site Characteristics North Omni (Area 1 – B)

The area bounded by NW/NE 22<sup>nd</sup> Street to the north, the FEC ROW to the east, NW 20<sup>th</sup> Street to the south, and NW 1<sup>st</sup> Place to the west, is comprised of eighty-two individual parcels and is primarily industrial in nature.

#### Existing Site Characteristics North Omni (Area 1 – C)

The area bounded by the NE 22<sup>nd</sup> Street to the north, shoreline along Biscayne Bay to the east, NE 20<sup>th</sup> Street to the south, and the FEC ROW to the west, and consists of a mix of industrial, retail and residential.

#### Existing Site Characteristics West Omni (Area 2 – A)

The area bounded by NW 20<sup>th</sup> Street, NW 1<sup>st</sup> Place, NW 18<sup>th</sup> Street and the FEC ROW is zoned majorily as industrial/institutional. Between NW 1<sup>st</sup> Place and NW 1<sup>st</sup> Court, NW 19<sup>th</sup> Street and NW 18<sup>th</sup> Street is Phyllis Wheatley Elementary School. The Overtown Villas residential townhomes, multi-family apartments, numerous vacant parcels are located in the area.

#### Existing Site Characteristics West Omni (Area 2 – B)

The area bounded by NW 18<sup>th</sup> Street to the north, the FEC ROW to the east, NW 16<sup>th</sup> Street to the south, and NW 1<sup>st</sup> Place to the west, is primarily residential, with older single family homes and the more recently constructed St. John's townhomes. The area includes two religious institutions and several multi-family buildings. There are also a significant number of vacant lots scattered throughout the area.

#### Existing Site Characteristics Bicentennial Park (Area 3)

Bicentennial Park is located east of Biscayne Boulevard and south of the MacArthur Causeway. Regional Pump Station No. 2, owned and operated by Miami-Dade County's Water and Sewer Department (WASA) is located at the park's edge.

#### Existing Site Characteristics Watson Island (Area 4)

Watson Island, located east of Miami's inland and south of MacArthur Causeway, is a man-made island. This area is home to the Miami Children's Museum, and the former Chalk's Airlines facility.

#### 3.2 Site and Structural Deterioration

The Study Area suffers from significant site and structural deterioration, evidenced by the numerous dilapidated buildings, neglected properties, and a deteriorated public right of way, including broken, chipped, or cracked sidewalks and roadways in need of repair or striping. These conditions present a safety hazard to pedestrians and motorists, and project a negative image of the Study Area, which, in turn, discourages private investment. An example can be seen in North Omni where many industrial properties have significant structural defects due to poor maintenance. Such blight affects nearby properties along NE 21<sup>st</sup> and 22<sup>nd</sup> Streets and NE 20<sup>th</sup> Terrace. Moreover, the several single-family and multi-family residential buildings in West Omni also demonstrate structural deterioration, thereby contributing to the desolate and bleak character of the area. Much of the deterioration observed throughout the Study Area is attributed to the age of many buildings. Many of these structures are more than thirty years old and are in dire need of rehabilitation and maintenance (See Age of Buildings Map on Page 21). The site and structural deterioration is exacerbated by the current economic environment, in which property owners are unable to finance necessary repairs and improvements.

The property at 1990 North Miami Avenue is in need of landscape maintenance.

Strewn bicycles at 175 NW 20<sup>th</sup> Street.

Car repair conducted in the open and visible from the street.

FEC ROW at NW 17<sup>th</sup> Street is utilized as a site for illegal dumping.

Missing landscape along sidewalk on NW  $17^{\rm th}$  Street (south of Dorsey Park).

Damage to roadway along NW Miami Court as a result of heavy truck traffic.

The poorly maintained fence surrounding the property at 60 NW  $17^{th}$  Street, south of Dorsey Park.

Standing water at the southeast corner of NW  $16^{\mbox{th}}$  Street and NW  $1^{\mbox{st}}$  Avenue.

Downed public signage and sidewalk infrastructure in disrepair at NW  $1^{st}$  Avenue between NW  $16^{th}$  Street and NW  $15^{th}$  Street.

Commercial garbage containers are not properly enclosed as required.

The dilapidated structure at 158 NW 17<sup>th</sup> Street has a damaged roof and fence, and is in need of exterior painting.

Property at 1540 NW 1<sup>st</sup> Avenue with severe roof and fence damage.

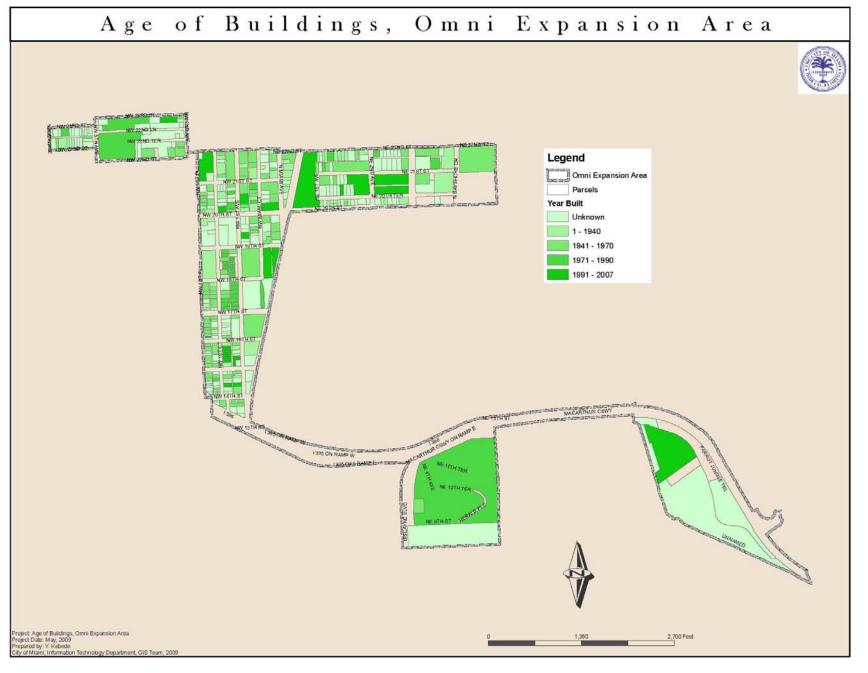

The dilapidated building at 1553 NW 1<sup>st</sup> Court with severe roof damage.

The poorly maintained fence surrounding the property at 2022 NW  $1^{\rm st}$  Court.

The vacant property at 435 NW 22<sup>nd</sup> Lane is in need of landscape and façade maintenance.

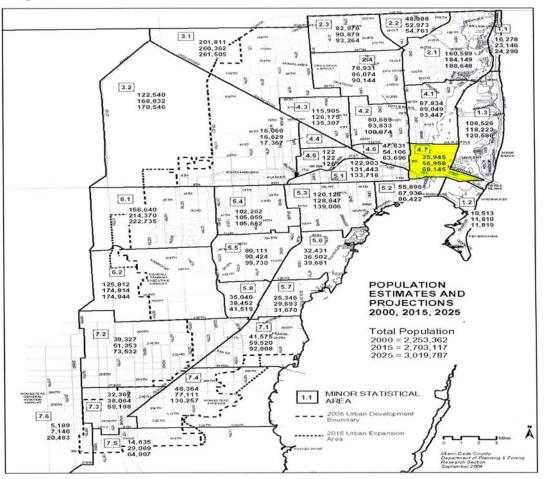

Finding of Necessity Proposed Expansion to Omni Redevelopment Area Site and structural deterioration in the Study Area is further aggravated by inclement weather experienced during the annual hurricane season. (See Flood Zone Map on page 23). Specifically, the eastern section of the Study Area, Watson Island and Bicentennial Park are designated as "Special Flood Hazard Areas" or "Coastal High Hazard Areas." In 2008, Miami-Dade County issued its revised *Comprehensive Emergency Management Plan* ("CEMP"), to address potential hazards, both naturally occurring and man-made, to Miami-Dade County. In identifying Miami-Dade County's vulnerability to hazards, the CEMP drew a correlation between highly populated areas and potential hazards. CEMP-designated Area 4.7 includes the eastern section of the Study Area, Watson Island and Bicentennial Park and is projected to have a total population of 56,958 by the year 2015, and 68,145 by the year 2025, and is considered to be extremely vulnerable to hurricane damage resulting from storm surge and flooding.<sup>1</sup>

Comprehensive Emergency Management Plan

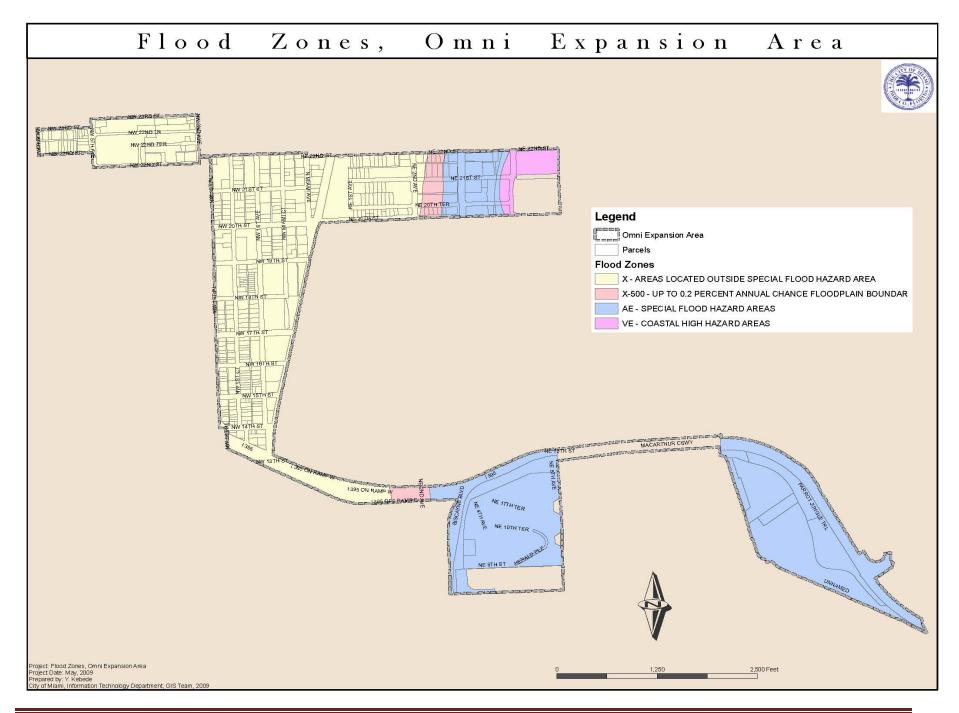

Revised: June 2008

Page 171 of 218

<sup>1</sup> Comprehensive Emergency Management Plan, Miami-Dade County (revised June 2008) Page 29 of 218

Finding of Necessity Proposed Expansion to Omni Redevelopment Area Page 23

#### 3.3 Vacant Buildings and Lots

#### Vacant Buildings

Vacant buildings are visual signs of physical blight and disinvestment in the area. Such buildings generally constitute a hazard because they normally lack maintenance and, oftentimes, have become structurally unsound. Moreover, vacant buildings have become the site for illegal drug activities and serve to attract homeless individuals seeking shelter. The concentration of vacant buildings is largely found in West Omni (See Property Characteristics Report in Appendix 1).

Vacant and boarded building at 1898 NW 1<sup>st</sup> Avenue.

The vacant properties at 1731 and 1741 NW 1<sup>st</sup> Court with barricades at the entrance.

Vacant and boarded property at 1425 NW 1<sup>st</sup> Place.

Vacant and boarded property at 158 NW 17<sup>th</sup> Street.

Vacant and boarded property at 100 NW 17<sup>th</sup> Street.

The vacant Wynwood Free Trade Zone at 318 NW  $\rm 23^{rd}$  Street.

Foreclosed property at 1440 NW 1<sup>st</sup> Avenue.

#### Vacant Lots

Vacant lots also have a negative impact on communities by inviting the occurrence of illegal activities, such as illegal dumping. Moreover, vacant lots disrupt the pedestrian street-wall and perpetuate the perception of disinvestment. There are numerous vacant lots interspersed throughout the Study Area.

Page 25

Vacant lot at 1941 NW 1<sup>st</sup> Avenue.

Vacant lot at 1905 NW 1<sup>st</sup> Court.

Vacant Lot at 1896 NW 1<sup>st</sup> Avenue.

Vacant lot at 1427 NW 1<sup>st</sup> Place.

Vacant lot at 1445 NW 1<sup>st</sup> Avenue.

The vacant lot at 1428 NW  $1^{\rm st}$  Avenue has a fence in disrepair.

Vacant lot for sale at 80 NW 20<sup>th</sup> Street.

Vacant lot for sale at 1534 NW 1<sup>st</sup> Avenue.

#### 3.4 **Property Violations**

On October 16, 2008, the Miami City Commission adopted Ordinance No. 13032, which amended the Code of the City of Miami by creating procedures to regulate vacant, blighted, unsecured and abandoned structures throughout the City. The passage of Ordinance No. 13032 was a direct response to the increasing number of these types of structures throughout the City and the onerous burden they posed to the City's resources. The Commission found that these structures perpetuated a nuisance to the public because of their susceptibility to fire safety hazards; temporary occupancy by transients; and criminal activity such as drug trafficking, drug use, prostitution, vandalism and other serious crimes. There are a number of properties that exhibit code violations. (See map entitled, "Code Violations" on page 31).

Inoperable vehicles stored on residential property.

Graffiti on exterior of building.

Graffiti on exterior of building at 50 NW 21<sup>st</sup> Street.

Trash dumped along NW 23<sup>rd</sup> Street, east of NW 5<sup>th</sup> Avenue.

Trash illegally dumped on NW Miami Court.

Trash dumped along NW 1<sup>st</sup> Court, north of NW 20<sup>th</sup> Street.

Vacant and boarded property with opening at 1731 NW  $1^{\rm st}$  Court.

Trash is dumped along NW  $1^{\rm st}$  Place, just south of NW  $22^{\rm nd}$  Street.

The vacant lands at 122 and 128 NW 1<sup>st</sup> Street and 1451 NW 1<sup>st</sup> Court are littered with trash.

Materials illegally disposed on property at the northeast corner of NW 1<sup>st</sup> Place and NW 20th Street.

Trash illegally dumped on the sidewalk on the northeast corner of NW  $21^{st}$  Street and NW  $1^{st}$  Court.

Trash is stored on the property at 172 NW 21<sup>st</sup> Street.

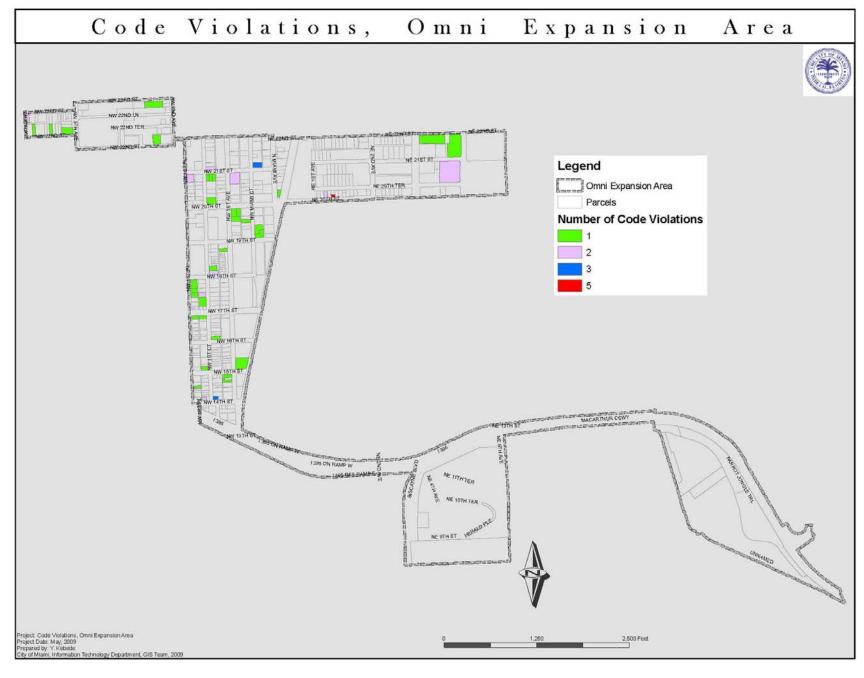

Makeshift sleeping area along NW  $1^{st}$  Place, north of NW  $21^{st}$  Street.

Materials illegally disposed on property at (missing address).

Materials illegally disposed on property at (missing address).

Finding of Necessity Proposed Expansion to Omni Redevelopment Area

Page 31

#### 3.5 Unsanitary and Unsafe Conditions

The City of Miami's Economic Development Department conducted a presentation, entitled "Status of Brownfields & Land Revitalization in the City of Miami," which assessed areas surrounding known facilities that have released hazardous materials into the environment. The assessment identified 400 known contaminated sites and resulted in the designation of large sections of the City of Miami as Brownfield Redevelopment Areas. Brownfield sites are characterized as any property that has been abandoned or underused due to a real or perceived environmental problem. State and local governments generally seek to encourage Brownfield redevelopment because such redevelopment improves the environment, places properties back on the tax rolls, encourages economic investment, fosters the creation of jobs and operates to revitalize a community.

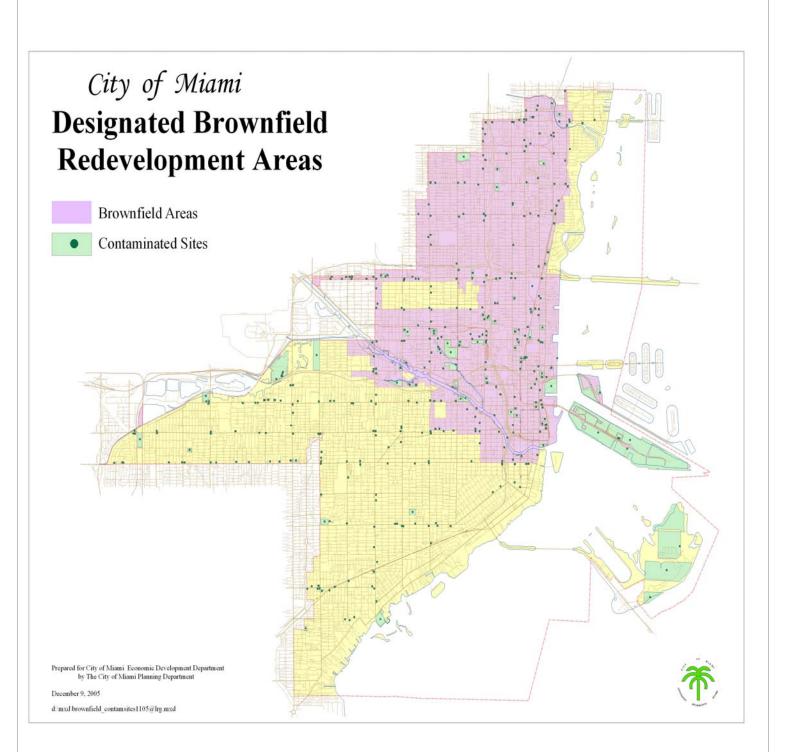

Tarmac plant at 1801 NW Miami Court.

In North Omni, there are two industrial plants, Tarmac Florida, Inc. and Teco/People's Gas System, Inc., that are perceived to have an adverse environmental impact residents on in the surrounding areas. For example, during the years 2002-2008, Miami-Dade County's Department of and Resource Management Environmental ("DERM") cited the Tarmac plant with violations for the release of excessive fugitive dust in the air; presence of cement buildup on adjacent roads leading to the facility; and siltation buildup throughout the storm water drainage system. Additional concerns related to the Tarmac plant include truck traffic, noise, and erosion, all of which contribute to blight in the area.

The entire Study Area is included within the Brownfield Redevelopment Area with ten known contaminated sites. While the City of Miami experienced Brownfield redevelopment success with projects such as Wynwood, Wagner Square and Midtown Miami, the Study Area has not reaped similar results. Despite incentives offered by State and local governments for the redevelopment of Brownfield Areas, the Study Area has remained untouched due to the lack of capital investment by financial institutions and the significant costs associated with highly regulated environmental oversight. With the City's initiative to revamp and simplify its Zoning Code using "smart growth" principles under Miami 21, the City is expected to provide additional incentives towards the redevelopment of Brownfield sites.

Siltation potentially draining into the storm water drainage system at the Tarmac plant.

The People's Gas System, Inc. ("People's Gas") site is located at 60 NW 17<sup>th</sup> Street. Records on file with DERM show that People's Gas had previously received a notice of violation for releasing hydrocarbon in the ground water (File No. UT-3223). While the file has been closed, the People's Gas site is still perceived to be contaminated. Further research revealed that the property had serious contamination from coal tars and other chemicals, and warranted assessment of the two-acre parcel at a value of just \$6,000.<sup>2</sup> (See Property Information Map on page 34.) According to DERM, development of People's Gas site for uses unassociated with a gas manufacturing plant would require substantial remediation.

While the designated Brownfield Redevelopment Areas map shows one known contaminated site on Watson Island, there are other areas of Watson Island that are perceived having some form of environmental contamination based upon the presence of certain facilities, such as the existence of a monitoring well that was installed on the island and the presence of the Chalk's International Airline, Inc. facility that once operated there.

Chalk's International Airline facility on Watson Island.

Monitoring well on Watson Island.

In addition to the aforementioned environmental concerns, Bicentennial Park is also home to a raw sewage pump station. Regional Pump Station No. 2, owned and operated by Miami-Dade County's Water and Sewer Department ("WASA"), is situated at the park's urban edge and emits a pungent, protrusive odor that permeates throughout the surrounding area. The pump station provides sanitary sewer service to several municipalities throughout Miami-Dade County. WASA had previously

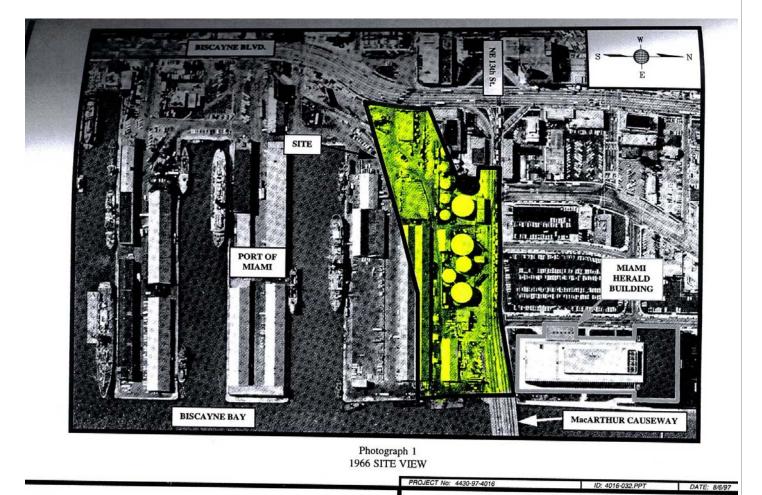

conducted an assessment of the pump station and found it in need of repair and upgrades. In considering relocation of the pump station, WASA determined such relocation would be cost prohibitive, and upgrades were estimated at \$33 million. A dedicated funding source for this critical repair has not been identified.

Regional Pump Station No. 2 at Bicentennial Park.

<sup>2</sup> Response resulting from Miami-Dade County's Public Service Request # 97339 submitted March 24, 2009.

Bicentennial Park was also the site of a petroleum spill (See Photograph 1, 1966 Site View below). According to DERM, petroleum contamination was discovered during the early 1960's when the MacArthur Causeway was under construction. As a result, Bicentennial Park was enrolled in Florida's State Cleanup Program in 1999. Sections of Bicentennial Park were filled in. The Port of Miami once operated where the southernmost section of the Park exists today. This has created the perception that environmental contamination on site due to historical seaport operations may still be lingering.

Westinghouse Remediation Services, Inc. 111 KELSEY LANE, SUITE B, TAMPA, FLORIDA 33619 PH(813) 620-1432 FAX(813) 620-3649

AERIAL PHOTOGRAPH - FEBRUARY 1966 MacARTHUR CAUSEWAY MIAMI, FLORIDA The Study Area also exhibits other unsanitary and unsafe conditions in the form of criminal activities, illegal dumping, and homeless activity. These conditions, in turn, contribute to the slum and blight. For example, a site visit to Watson Island revealed an inordinate amount of drug paraphernalia and trash in close proximity to the Miami Children's Museum and along the southern shoreline. Moreover, an unidentified pipeline was seen in close proximity to the shoreline and may be vulnerable to vandalism or accidental damage.

Paraphernalia found at Watson Island.

Illegal Dumping at Watson Island.

Pipeline running along shoreline at Watson Island.

Bicentennial Park is also inundated with a large homeless population. In 1996, Bicentennial Park was designated by the City of Miami as a safe zone for homeless individuals living in the city. It appears that the park is still utilized by the homeless for that same purpose today. Notwithstanding this designation, the large population of homeless contributes to the feeling that Bicentennial Park is unsafe for use and recreation. In turn, Bicentennial Park is not fully utilized and remains desolate.

Homeless on Watson Island.

Homeless at Bicentennial Park.

Homeless at Bicentennial Park.

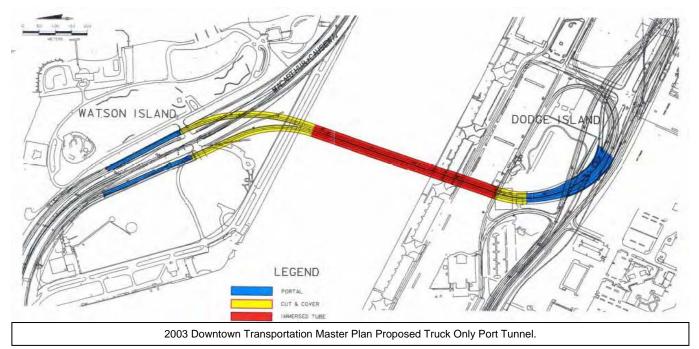

# Section 4. TRANSPORTATION

# 4.1 Access, Connectivity and Pedestrian Corridors

A major concern to stakeholders and residents of the Study Area are the inherent transportation related obstacles that inhibit the pedestrian experience. The traffic congested streets are difficult to traverse, render certain desolate areas distant and isolated from pedestrian magnets. For example, Bicentennial Park seems disconnected from the western edge of Biscayne Boulevard due to the significant traffic. The increased congestion is primarily attributed to intense development permitted by the City of Miami's Zoning code. Moreover, those traveling by car complain of significant delays resulting from traffic congested streets. While many of the properties in the Study Area are under-developed, future development of those sites will contribute to the overall congestion. (See Map below entitled "Link Counts – Central Study Area SEOPW DRI Increment III".)

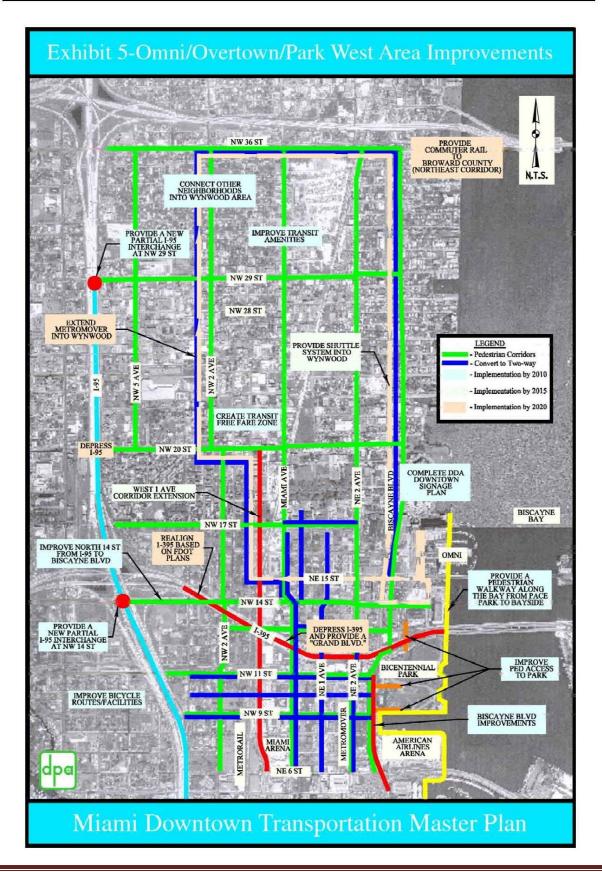

In April 2003, the Miami Downtown Transportation Master Plan ("DTMP") was issued for downtown Miami, including the Study Area. The DTMP identified the challenges of reforming downtown Miami's transportation system by way of improvements, additions, and upgrades to roadways, public transit systems, and pedestrian corridors. (See Map entitled "Miami Downtown Transportation Master Plan Omni/Overtown/Park West Area Improvements" on page 41.)

One of the major points made in the DTMP was the need for a port tunnel to divert truck traffic from surface streets, as NE 5<sup>th</sup> and NE 6<sup>th</sup> Streets, NE 2<sup>nd</sup> Avenue and Biscayne Boulevard within the Study Area. According to the DTMP, the port tunnel would enable the "[i]ncrease in the vehicular access to and from the Port, [e]xtension of hours of Port operations, and [r]emoval of Port-related truck traffic from Downtown Miami streets." Moreover, "truckers would [have] easy and convenient access to I-95 and SR 836 (the Dolphin Expressway)." With the removal of trucks from the Study Area's surface streets, there would be a more pedestrian friendly environment. The need for more pedestrian corridors has also illustrated in other studies regarding the area.

In May 2001, Dover, Kohl & Partners issued "Bicentennial Park: Becoming Miami's Premier Park," (Park Report") which sought to identify the existing adverse conditions found at and near Bicentennial Park, and the mitigation of these conditions in order to develop Bicentennial Park as a premier public amenity. While the Park Report was issued over nine years ago, the conditions reported therein are still prevalent today. Pedestrian access in and around Bicentennial Park, and the generally hostile pedestrian environment found near the site was deemed significant in the Park Report. "The park should be accessible and easy to walk to. Streets leading to and abutting the park should be safe and pedestrian-friendly." The intersections of NE 10<sup>th</sup> and NE 11<sup>th</sup> Streets at Biscayne Boulevard do not have safe pedestrian crossings into Bicentennial Park. I-395 constitutes a barrier at the northern boundary of Bicentennial Park, and does not allow pedestrians to cross at North Bayshore Drive. Moreover, the public baywalk has not been connected and therefore, is not widely utilized. As provided for in the DTMP and the Park Report, a safe, pedestrian oriented environment encourages more residents to choose to live in an urban center, and attracts visitors to commercial venues within that same urban center.

In addition to the aforementioned, the potential traffic impact resulting from future large scale development on Watson Island has also been a major point of discussion. Development on Watson Island is currently at a minimum, with only the Miami Children's Museum and remnants of the Chalk's International Airline facilities. While the City of Miami and a private developer are currently undertaking steps towards large scale development on Watson Island, officials representing the City of Miami Beach had previously voiced concern that the MacArthur Causeway did not have the capacity to handle traffic destined for both Miami Beach and Watson Island. Miami Beach officials content that "MacArthur Causeway is the key linkage between Miami Beach/South Beach and the mainland, which makes it a key infrastructure asset to the region's economy."<sup>3</sup>

<sup>&</sup>lt;sup>3</sup>Stabley, Susan. "Miami Beach officials have doubts about Watson Island project." *Miami Today News*. Week of May 20, 2004. Web. 20 February, 2001.

# 4.2 Faulty Street Layout

Generally, the layout of streets should provide the framework that connects the various elements of land use to support individual lot uses, lot layouts, and future developments. Additionally, proper street layout reduces traffic congestion, minimizes safety hazards to motorists and pedestrians, and unifies neighborhoods. Along commercial corridors, the street layout should support the local business community by leading residents and visitors to their destination, easing traffic congestion, encouraging public spaces, and inspiring architectural design of buildings that open towards the public right of

way. Within residential areas, the street network should be designed with multiple connections and direct routes to preserve the quiet character of a local residential street, while providing convenient and safe access for emergency service vehicles.

Historically, the lot layout of the Study Area consisted of perimeter blocks with alleyways located mid-block. These alleys served to promote and enhance pedestrian access to residences and businesses by cutting through the neighborhood block and allowing for \a shorter route to destinations. Today, these alleys serve as desolate passageways that invite illegal dumping, homeless activity, and the use of drugs unseen by the public and law enforcement.

Alleyway between NW 1<sup>st</sup> Avenue and North Miami Avenue between NW 19<sup>th</sup> and NW 20<sup>th</sup> Streets.

The western section of the Study Area has poor street connectivity where streets do not meet and form a typical four-way intersection, but rather, create a three-way or "T" intersection. For example, "T" intersections can be found at NW 15<sup>th</sup> Street and NW 22<sup>nd</sup> Avenue, and NW 17<sup>th</sup> Street and NW 2<sup>nd</sup> Avenue. Some of the "T" intersections are not sufficiently spaced from the next street, thereby creating to the north, creating a jog in the alignment of the road. This misalignment is found at NW 2<sup>nd</sup> Court which ends at NW 17<sup>th</sup> Street and the road alignment of NW 17<sup>th</sup> Street jogs a half block south on NW 2<sup>nd</sup> Avenue as it continues eastward. Moreover, other "T" intersections at 19<sup>th</sup> and 18<sup>th</sup> Streets effectively create an extremely long block, which serves as a barrier and decreases pedestrian connectivity to adjacent neighborhoods.

The FEC ROW has contributed to the inadequate street layout of the area west of the ROW. The FEC ROW physically separates the proposed expansion area from the Omni Redevelopment Area by creating dead end streets instead of railroad crossings. There are only two railroad crossings in the proposed expansion area (e.g., NE 20<sup>th</sup> Street, and NE 14<sup>th</sup> Street).

# **Omni CRA Expansion**

# 4.3 Public Transportation and Parking Facilities

### Metrorail and Metromover

While West Omni is served by Miami-Dade County's Metrobus service, it is completely bypassed by the Miami-Dade County Metrorail system. Generally, the locations of Metrorail Stations are determined by the proximity of transit dependent communities with lower incomes and high population densities. While the household income of the population in West Omni falls below Miami-Dade County's Area Median Income, there are no existing Metrorail Stations that adequately serve the area. Culmer Station to the south, and the Civic Center to the northwest, is too far from the Study Area to be considered as servicing West Omni. (See Map of Miami-Dade County's Metrorail and Metromover systems on page 44.)

Metromover system ends at NW 15<sup>th</sup> Street and the FEC ROW.

The bus stop on NW 20<sup>th</sup> Street is without shelter and is missing sidewalk.

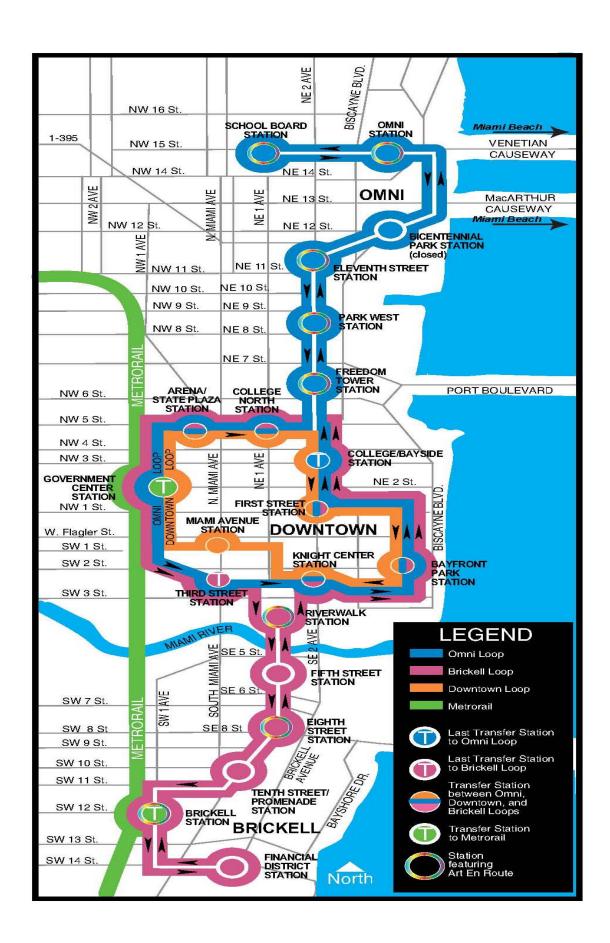

Moreover, observation revealed that access points to Metrobus and Metromover transportation systems are not adequate and convenient for patrons. Many of the Metrobus stops located within the Study Area are not equipped with bus shelters to shield patrons from inclement weather or seating to accommodate elderly or handicapped patrons. Convenient linkages to the public transportation systems are

limited or simply do not exist, thereby leaving residents with few options to timely arrive at their destination. In order to access these transportation interchanges, residents must utilize small commuter services, such as the Jitney vans, which provides limited seating (10-12 passengers) and are not ADA-compliant.

As with the Metrorail system, Miami-Dade County's Metromover network is designed to facilitate intra downtown travel and access to the Metrorail system. The Metromover was expected to connect residents with safe, convenient access to areas of employment in Downtown's Central Business District, and Brickell, as well as to entertainment, cultural and institutional sites. However, the only Metromover station that services the Study Area is the School Board Station at NE 15<sup>th</sup> Street. (See Map of Miami-Dade County's Metrorail and Metromover systems on pg. 44.) In 1994, the Bicentennial Park Station was operational and provided service to and from Bicentennial Park. However, the Miami-Dade Transit Authority deemed it underused due to inactivity in Bicentennial Park and increased criminal activities. The Bicentennial Park Station was closed in 1996.

The Study Area also lacks centralized public parking facilities to serve workers and visitors traveling by vehicle. The absence of convenient parking facilities discourages consumers from patronizing businesses in the area. In an effort to accommodate their respective clientele, new developments would be forced to incorporate private parking facilities on site, thereby reducing the buildable footprint of the

project, and increasing the cost of the development to account for the construction and operational costs associated with the parking facility.

### Section 5. INCOMPATIBLE LAND USE

Incompatible land uses are prominent throughout the Study Area and are attributed to several factors. Economic conditions, the City of Miami's antiquated land regulation plan, and the long term effect of zoning variances have created the current situation. For example, manufacturing and warehousing facilities have appeared in close proximity to residential neighborhoods. The conflict between industrial and residential uses has a profound and negative impact on the quality of life for residents.

The Overtown Villas residential development is located on NW 1<sup>st</sup> Avenue, between NW 18<sup>th</sup> and NW 19<sup>th</sup> Streets. The industrial business at 1849 NW 1<sup>st</sup> Avenue is situated east of the Overtown Villas, and generates significant truck traffic.

Current zoning guidelines for the City of Miami require a gradual transition in land uses. Notwithstanding this requirement, the Study Area, particularly West Omni, demonstrates a lack of progression between extreme uses. This historically residential neighborhood is the site for two cement manufacturing facilities, which also generate truck traffic, and because the emission fugitive dust.

People's Gas site at NW 16<sup>th</sup> Street and NW 1<sup>st</sup> Avenue and the Tarmac cement facility are within walking distance to a residential neighborhood.

Section 163.3202, Florida Statutes, identifies considerations undertaken the by municipalities updating and enforcing local land development regulations. At a minimum, land development regulations should: (1) regulate the subdivision of land; (2) ensure the compatibility of adjacent uses and provide for open space; (3) ensure safe and convenient onsite traffic flow, considering needed vehicle parking; and (4) provide public facilities and services that meet or exceed the standards established in the municipality's capital improvements element of its comprehensive plan and ensure that these facilities and services are available when needed for the development. The Study Area is in dire need of land development review to ensure future successful growth and development.

In an effort to address zoning issues citywide, the City of Miami has undertaken an ambitious plan to overhaul its zoning regulations by implementing the Miami 21 Zoning Code ("Miami 21"). Miami 21 is a form-based code influenced by the tenets of New Urbanism and Smart Growth to promote orderly development. Miami 21 is expected to be presented to the Miami City Commission in late 2009.

# Section 6. Unusual Conditions of Title

The development of Watson Island would serve to enhance the City's image as a waterfront community. Visitors would be drawn to the area, in turn, creating and sustaining economic opportunities for the City's residents. However, despite the potential to have incredible waterfront access and amenities, development of Watson Island is exceptionally challenging due to the Island's unusual conditions of title. On February 24, 1949, the State of Florida conveyed Watson Island to the City of Miami, with a restriction that development on the island qualify as a public purpose. Moreover, if the City allowed Watson Island to be developed by private developers, public approval of the proposed developments would have to be obtained by referendum. The conditions triggered by the deed restriction serve as a significant obstacle in successfully developing Watson Island. The "public purpose" developments of Parrot Jungle and the Miami Children's Museum have required the City to expend significant resources in ensuring their continued operations.

In addition to the "public purpose" and referendum requirements, development of Watson Island requires approvals and coordination with numerous entities, such as the City of Miami, DERM, State of Florida, City of Miami Beach, US Army Corps of Engineers, Florida Department of Environment Protection, South Florida Water Management District, Florida Department of Transportation, and the Florida Department of Community Affairs. Proposed developments would also be required to comply with the Biscayne Bay Aquatic Preserve Act.

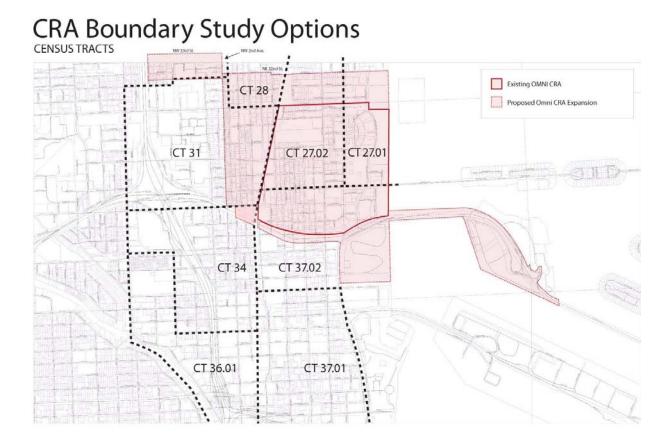

The challenges posed by Watson Island's unusual conditions of title can be seen with the proposed Island Gardens development. In 2001, a Request for Proposals was issued for development of Watson Island. "Island Gardens," the proposal submitted by Flagstone Property Group, was accepted as the successful respondent. The Island Gardens development proposal was approved by public referendum and subsequently approved by the Miami City Commission and by the Board of County Commissioners for Miami-Dade County. Since its approval, the project has encountered several complications and hurdles. Delays in development led to market conditions affecting the maritime industry and construction financing. Moreover, several lawsuits were filed by residents opposing the development.<sup>4</sup> In turn, the developer and the City were forced to amend their agreements to reflect a longer timeline for project.

<sup>&</sup>lt;sup>4</sup> "Musibay, Oscar. "Watson Island project financing an issue for Flagstone Development". *The South Florida Business Journal.* 30 May 2008. Web 10 Feb 2009.

# Section 7. Socio-Economic Conditions

# 7.1 Demographic Characteristics

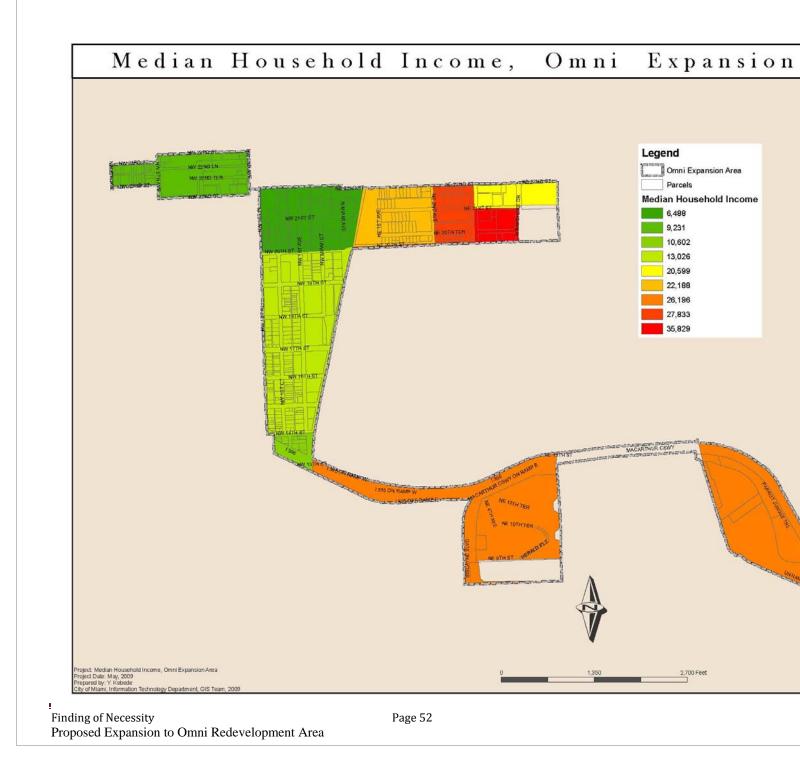

Census tract data was used to identify the demographic characteristics of the Study Area. Census 2000 statistics and the 2006 American Community Survey are the most recent official publications of data available as a resource in assessing the conditions within the Study Area. The Study Area is encompassed within the boundaries of census tracts 28, 31 and 37.02.

As summarized in the table below, North Omni and West Omni, represented by census tract 28 and 31 respectively, is plagued with high unemployment levels, and low household incomes, with approximately 50% of families living below the federal poverty level. The demographic characteristics portray a population of residents in need of an immediate redevelopment of their physical surroundings and improvement to their socio-economic environment.

TRACT NUMBER	EMPLOYED OVER 16 YEARS OF AGE	MEDIAN HOUSEHOLD ANNUAL INCOME	EARNING LESS THAN \$10,000/YR	FAMILIES POVERTY LEVEL	OWNER OCCUPIED DWELLING UNITS
27.01	52.2%	\$32,825	18.5%	18.7%	35.5%
27.02	44.0%	\$22,917	23.6%	26.2%	13.9%
28	31.4%	\$ 9,671	50.6%	56.6%	3.8%
31	29.6%	\$11,330	45.5%	29.3%	11.6%
37.02	47.5%	\$26,196	24.1%	37.5%	0.7%

SOURCE: TABLE DP-3 Profiles of Selected Economic Characteristics 2000 Census Summary File 4

The purchase of a primary residence signals to the community the long-term commitment and investment of the property owner in the area. A large percentage of owner-occupied homes suggest a more stabilized neighborhood. The data assessed for the Study Area reveals a significantly low percentage of residents that own their homes. With an 11.6% homeownership rate, Census Tract 31 contained the highest percentage of owner-occupied dwelling units within the Study Area. This, in addition to the data on household income, indicates that the Study Area is predominantly inhabited by low-income renters. This may also explain why the routine maintenance and repairs to the owner-occupied properties are infrequent or have not occurred resulting in the continued deterioration of these structures as discussed in Section 3.2 of this report.

# 7.2 Housing Characteristics

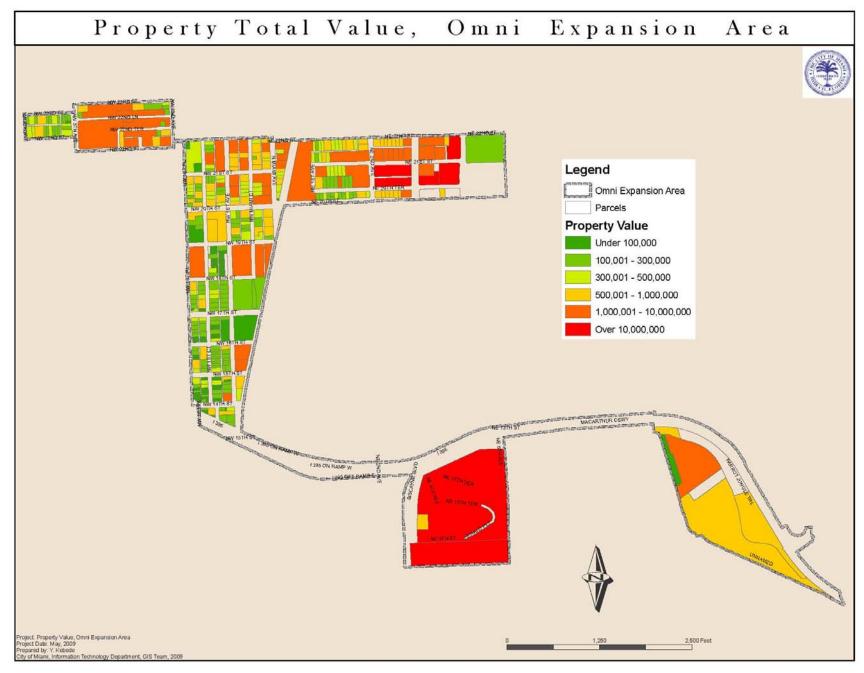

Generally, the development pattern of the residential areas within the Study Area consists of a mix of single family units, duplexes, and low to moderate density residential buildings. Such housing seems contrary to the surrounding areas, including Downtown Miami, Brickell Business District, and the Healthcare District. Additionally, the development potential for many of the residential properties in the Study Area has not been fully realized, in that these properties would allow for more density than what is currently in place. When the discrepancy between zoning capacity and existing development occurs, and with inexpensive land, manufacturing and warehousing companies set up facilities in these residential neighborhoods further destabilizing the community.

# 7.3 Real Estate Values

With the Study Area in close proximity to Downtown Miami where properties with high density and intensity use or zoning designation, absentee owners place properties on a "holding pattern" waiting for opportune market conditions that would allow them to realize high economic returns. Subsequently, absentee owners do not invest heavily on property maintenance and improvement. The Study Area has a significant number of absentee property owners who follow this business model, adding to the continuous deterioration of residential buildings. This trend has also contributed to the development pattern that created incompatible uses of adjacent properties as discussed in Section 5.

In addition to market conditions, the encroaching industrial areas that span from NW 1<sup>st</sup> Avenue east to the FEC ROW and north from NW 14<sup>th</sup> Street to NW 22<sup>nd</sup> Street have significantly devalued the residential properties in the area. Moreover, the occurrence of criminal activities, the large homeless population, and the site and structural deterioration of the area severely hinder marketing efforts for the Study Area.

#### 

Finding of Necessity Proposed Expansion to Omni Redevelopment Area

### 7.4 Crime

Crime has been one of the major contributors to the decline of the Study Area, and in turn, poses a challenge to its redevelopment. Narcotics, burglaries, robberies, and automobile thefts are a few of the ongoing issues faced by law enforcement in patrolling the Study Area. The current physical environment of the Study Area is conducive for criminal activities. As previously discussed, the Study Area has an abundance of vacant lots and structures. In turn, these structures lend themselves to being used as "crack houses" or locations where narcotics for sale are stored. The decline in legitimate job opportunities and the false sense of economic benefit from illegal activities have partially influence the occurrence of crime in the Study Area. Due to the presence of criminal activity, many of the building owners and businesses within the Study Area have undertaken measures to secure their properties. Commercial storefront windows and doors are equipped with bars to prevent illegal entry. Many property walls have barbed wire protruding from the top. While these means of protection are seen as necessary, such measures contribute to the slum and blight conditions prevalent throughout the Study Area.

The City of Miami Police Department provided Crime Statistic for the Study Area (reflected by Police Reporting Areas 120, 132, 141, 146, and 176) from January 1, 2008 to December 31, 2008. Table 7.1 documents the calls for service put through the City's Policy Department. "Calls for service" are generally defined as a call from the public to the police dispatcher. Upon obtaining relevant information from the caller, the dispatcher instructs police in the field to respond to the location given by the caller. The majority of the calls for service made during the aforementioned period were in response to assaults or batteries, with burglaries and larcenies following.

			vice Calls 8-December 31, 2008		
Special Information	Reporting Area 146 (West Omni)	Reporting Area 120 & 132 (North Omni)	Reporting Area 141 (Bicentennial Park/I- 395)	Reporting Area 176 (Watson Island)	TOTAL
Homicide	2	1	0	0	3
Stolen decal	0	0	1	1	2
Stolen tag	9	9	0	0	18
Stolen vehicle	10	7	1	1	19
Burglary	32	15	0	0	47

Larceny, motor vehicle	10	11	9	25	45
Larceny, retail theft	0	2	0	0	2
Robbery	21	1	1	1	24
Robbery, snatch	2	1	0	0	3
Simple assault or battery	60	16	4	1	81
Aggravated assault	23	3	2	0	28
Sex offense	5	3	1	1	10

Table 7.1 2008 Data provided by City of Miami Police Department

In addition to calls for service, the City of Miami Police Department has undertaken an abundance of direct arrests in the Study Area. "Direct arrests" are arrests effectuated by a law enforcement officer upon observing the commission of a crime. The Table 7.2 reflects the number of direct arrests made in during the aforementioned period.

	Janu	DIRECT ARREST ary 1, 2008-Decembe			
DIRECT ARRESTS	Reporting Area 146 (West Omni)	Reporting Area 120 & 132 (North Omni)	Reporting Area 141 (Bicentennial Park/I-395)	Reporting Area 176 (Watson Island)	TOTAL
Larceny	1	1	0	0	2
Larceny, motor vehicle	1	0	0	0	1
Traffic Violations	69	40	28	0	137

Robbery	6	0	0	0	6
Sex Offense	0	0	0	1	1

 Table 7.2
 2008 Data provided by City of Miami Police Department

### 7.5 Public Health

In 2005, the Jefferson Reaves Senior Health Center, a Miami-Dade County tax-supported clinic, published a report entitled, "Rapid Assessment, Response & Evaluation Report to Public Policymakers" ("RARE Report"). The Study Area includes a portion of the Overtown neighborhood, and therefore, the RARE Report is relevant to the analysis undertaken herein. The RARE Report sought to assess health disparities and identify health risks within the area. The RARE Report identified the following as necessary improvements to the health center's delivery of services to Overtown residents: access; new model of care; enhanced integrated services; coordination; and communication.

The RARE Report concluded that "the people of Overtown remain a marginalized community with poor health outcomes and significant cultural barriers to the use of the health center" and stated that residents who do not or cannot tolerate the inconvenience of attending the health center for routine checkups, "take care of themselves with prayer, self-medicate with prescription from friends or underground pharmacies, street-drugs, and/or herbs, and finally resort to emergency care as a safety net."<sup>5</sup> The report further confirmed that while the Health Center was established to meet the needs of Overtown residents and was strategically located within the Overtown community, it was mostly utilized by people throughout the County.

In 2008, Miami-Dade County published a report entitled, "Selected Socio-Economic and Public Health Indicators Report," which compiled data on various socio-economic factors, such as population, race, household types and size, income, and poverty status. The County's report also indicated that portions of the Study Area, represented by zip code 33132, had a higher percentage of cardiovascular and infant mortality rates when compared to rates for all of Miami-Dade County. Moreover, it also indicated that residents in this same area were more like to be uninsured and enrolled in Medicaid than residents countywide.

ZIP CODE	% UNINSURED	CARDIO- VASCULAR MORTALITY RATE/1000	PERCENT ENROLLED IN MEDICAID	INFANT MORTALITY RATE/1000 BIRTHS
33127	30.3	2.7	31.1	12.0
33136	29.5	3.7	30.6	26.2
33132	30.1	1.4	7.7	0
33128	33.0	6.6	43.1	10.2
MIAMI-DADE TOTAL	28.7	2.7	17.9	6.5

Source: Selected Socio-Economic and Public Health Indicators Report prepared by Miami-Dade County, February 2008

# Section 8. Conclusion

The data and analysis presented in this Finding of Necessity report documents the existence of slum and blight conditions, as defined in Sections 163.340(7) and (8), and further supports the inclusion of the Study Area within the existing Omni Redevelopment Area. This report illustrates that the existing conditions of slum and blight, if left unattended, will continue to flourish within the Study Area and beyond into the existing Omni Redevelopment Area and adjacent neighborhoods. These serious and growing conditions of slum and blight constitute an economic and social liability to the City of Miami and Miami-Dade County, and will impose onerous burdens including increased consumption of the municipal and County revenues for public services, such as to public safety, transportation, and infrastructure within the Study Area. Physical conditions such as the lack of pedestrian corridors, faulty street layout, deterioration of structures and infrastructure, incompatible land uses, as well as the abundance of vacant lots and buildings readily project an image of neglect, despair, and abandonment. As a result, many of the socio-economic conditions prevalent throughout the Study Area are causally connected and arise from the surrounding physical environment.

# APPENDIX 1

The following pages contain the report on Property Characteristics, listed by Folio Number, and provide the information necessary to support the findings of this report.

The Folio Number identifies each individual property.

The **property address** gives the exact location corresponding to the Folio Number.

The **owner's address** is utilized to determine the number of properties owned by the same entity or individual, and in the case of residential property, whether the unit is owner occupied or non-owner occupied.

The **use** category lists the present utilization of the property.

The **zoning** category identifies the current zoning designation as established by the City of Miami in its code.

The **year built** is the information of the age of the structure to assist in the determination of redevelopment costs.

The **building size** provides the information on the square footage of the structure.

The **lot size** is the square footage of the land and is helpful in determining Floor to Area (FAR) ratios when determining redevelopment build out scenarios.

The tax information corresponds to the year 2007.

The **maintenance** column lists the degree to which properties have been maintained following the definition below:

**GOOD.** Sound structure, recent paint or clean up, good landscaping, no trash or debris, adequate parking.

**FAIR.** Sound structure, no recent paint or clean up, some landscaping, no trash or debris, adequate parking.

**POOR.** Shows signs of aging, little or no landscaping, signs of trash and debris, no recent paint, inadequate parking.

**DERELICT.** Deteriorated structure, no recent paint, inadequate parking, trash and or debris, boarded up or abandoned.

VACANT. No structure on property.

Appendix 2

## SEOPW and Omni Community Redevelopment Areas

### Selected Socio-Economic and Public Health Indicators

Prepared by

Office of Strategic Business Management, Office of Countywide Health Care Planning, With Assistance From Department of Planning and Zoning

February 2008

#### **Summary of Contents**

- The following tables provide information on population, households, household, family and per capita income, poverty status of the population and limited indicators of residential building conditions within census areas that are wholly or partially within the existing and/or proposed expansion boundaries of the Southeast Overtown/Park West and Omni Community Redevelopment Areas, respectively.
- The Decennial Census of 2000 is the most current source of official socio-economic data at small geographic levels. Although, private data vendors provide estimates of this type of data for more recent years, the accuracy of that data is not verified or otherwise known.
- The data in Tables 1 to 6 are provided at the "block group" level. A block group is a statistical subdivision of a census tract, and represents the lowest-level geographic entity for which the U.S. Census Bureau tabulates **sample data** from the decennial census. The boundaries of the SEOPW and Omni CRAs do not coincide with the boundaries of census block groups. There are 15 census block groups that are either entirely within a CRAs existing boundaries, entirely within the boundaries of a proposed expansion to a CRA, partially within the existing boundaries of a CRA, or partially within the boundaries of a proposed expansion to a CRA. The relationship of each block group to an existing CRA or its proposed expansion is identified in the following tables.
- Public health statistics provided in Table 7 and illustrated in Maps 2 to 5 are available at the zip code level.
- This data package consists of:
  - Map 1. Existing boundaries and proposed expansion areas to the SEOPW and Omni CRAs, respectively;
  - o Table 1. Population and Race (by relevant block group);
  - o Table 2. Households, Household Type and Family Size.
  - o Table 3. Median Income and Percent of Households by Household Income Group
  - o Table 4. Median Income and Percent of Families by Family Income Group
  - o Table 5. Per Capita Income, Poverty Status and Ratio of Income to Poverty Level
  - Table 6. Housing Units, Vacancy and Complete Plumbing and/or Kitchen Facilities
  - Table 7. Select Public Health Indicators
  - o Maps 2-5, Select Public Health Indicators
- Questions on the data contained herein may be addressed to: Dr. Robert Cruz, Economic Policy Coordinator, OSBM, Miami-Dade County at (305) 375-1879, or cruzr1@miamidade.gov
